Product Description & Specifications

Product Description

The legendary red Swingline stapler commands attention and delivers precise stapling.

Swingline® 747® manual desktop stapler is simple, accurate, reliable and strong. Metal construction, inner rail and positive locking latch makes this stapler especially durable, minimizes jamming and keeps staples aligned. The 747 model staples 25 sheets at a time and opens flat for tacking ability to post papers instantly to a bulletin board or similar tackable surface. This stapler also has a reversible anvil for pinning. By turning the anvil you can create a pin staple with legs that point out so it can be removed without a staple remover, and without ripping papers.

- 25-sheet stapling capacity with Swingline® S.F.® 4® staples
- Uses 1/4" premium and standard staples
- Red desktop metal stapler provides outstanding stapling performance
- Holds a full strip of 210 staples
- Red
- Metal construction with die-cast base provides maximum durability
- Modern-design stapler with performance-driven stapling mechanism and inner rail always delivers jam-resistant, accurate stapling
- Stapler opens for tacking ability
- Anvil rotates for pinning ability to create temporary staples
- Positive locking latch secures staple position
- Limited lifetime warranty and 100% Performance Guarantee

**Updated Design**  
Sturdy and long-lasting, with a nice weight to it, this classic stapler has a modern shape that still resonates as Swingline. Metal construction ensures maximum durability.

**Stapling**  
A 747® was made to staple. It easily staples up to 25 sheets at a time, desktop or handheld, when used with standard size Swingline® S.F.® 4® Premium Staples.

**Tacking**  
A 747® was also made to tack. Simply push the release on the bottom of the stapler and the top will open up a full 180 degrees so you can post papers to bulletin boards, telephone poles and more.

**Pinning**

1 of 2

A 747® can pin too! The knob on the bottom of the stapler allows the stapling anvil to reverse position to create a temporary staple that will point out on the ends so you can easily remove it.
